## Common Filter

The screenshot shows the 'Edit Channel #2 (Bol.com - Offers via API (for KaaS only) - CSV)' interface. At the top, there are navigation tabs for Stores, Channels, Orders, and Products. The main content area is divided into three filter sections:

- Common Filter:** This section is highlighted with a red border. It contains three dropdown menus:
  - 'Export Out of Stock Products' with a value of 'Yes'.
  - 'Export variants as single products' with a value of 'No'.
  - 'Export Removed Products' with a value of 'No'.
- Attribute Filter:** This section contains a text box with the condition: 'If ALL of these conditions are TRUE :'. There is a green plus icon next to the text.
- Category Filter:** This section contains a checkbox labeled 'Export ALL categories' which is checked, followed by the text 'Check to export ALL categories.'

## Export Out of Stock Products

Allows you to exports all or just in stock products.

## Export variants as single products

If you use configurable products you may want to export its variants as single products. If set to Yes, the configurable/parent products are excluded from the feed.

## Export removed products

By default **No**. Koongo can store also products which are not available in your e-store anymore (i.e. you have removed them from the catalog in the back-office of your e-store).

In some cases you may find useful to export them, e.g. this is the only way how to deactivate your past listing on Amazon. For more details please contact us at [support@koongo.com](mailto:support@koongo.com).

**Options: No** - exports product listed in your store

**Yes(All products)** - exports all products, removed products are includes

**Remove Only** - exports only removed products

## Attribute Filter

You can use any of store attribute for attribute filtering. It is also possible to set various attribute combinations.

## Attribute filter conditions

For attribute filtering there are various condition options available:

- **is** - attribute equal to ... - e.g. "Color is Red" (only Color Red products are listed in the feed)
- **is not** - attribute not equal to ... - e.g. "Color is not Red" (Color Red products are excluded from the feed)
- **equals or greater than** - e.g. "Price final with tax equals or greater than 100" (only products with price equal or greater than 100 are listed in the feed)
- **equals or less than** - e.g. "Price final with tax equals or less than 100" (only products with price equal or less than 100 are listed in the feed)
- **greater than** - e.g. "Price final with tax greater than 100" (only products with price greater than 100 are listed in the feed)
- **less than** -e.g. "Price final with tax less than 100" (only products with price less than 100 are listed in the feed)
- **contains** - e.g. "Name contains Nike" (only products which includes "Nike" in Name attribute are exported in the feed)
- **does not contain** - e.g. "Name does not contain Nike" (only products which do not include "Nike" in Name attribute are exported in the feed)

- **is one of** - e.g. "SKU is one of 1111,2222,3333,4444" (only products which SKU equals to 1111 or 2222 or 3333 or 444 are exported in the feed)
- **is not one of** - e.g. "SKU is not one of 1111,2222,3333,4444" (only products which SKU does not equal to 1111 or 2222 or 3333 or 444 are exported in the feed)
