### Submit your product feed!

For the product feed submission, you need to create a merchant account with the given channel - e.g. [Amazon seller account](#) or [Google merchant account](#). For more details about specific channel integration, please check specific channel [Submission manual](#).

Feed Preview is automatically opened after the profile is saved. It might be also opened by button **Feed Preview** at Channel list.

Koongo provides you feed **URL links** specific for each supported channels and marketplaces. The feed **URL links** are in XML, CSV or TXT format and contain your product data. There are three possible ways how to upload product data:

- [URL link submission](#) - you provide channel URL address where your product feed is located (i.e. <http://feeds.koongo.com/xxx>).
- [FTP submission](#) - you can upload your product feed using FTP. Please check the [FTP Settings](#) manual for details.
- [API submission](#) - you can upload your product feed using API integration. Please check the [API Settings](#) manual for details.
