

# Prestashop

Start your free 30-day trial now. Integrate your Prestashop with Koongo in **5 easy steps**.

## About Koongo

Koongo provides smooth integration to various **marketplaces and price comparison websites worldwide**. Koongo solution enables you to import your Prestashop products to Koongo.

There, you can optimize your data. And create automatic connections to marketplaces and price comparison websites of your choice.

Order management is integrated for marketplaces like **Miinto, Amazon, eBay, idealo, Beslist.nl or Bol.com**. Koongo transfers marketplace orders back to your Prestashop store. Marketplace orders can be fulfilled directly in Prestashop just like ordinary orders.

## Table of Contents

1. Generate API key for Koongo
  - 1.1 Go to Webservice
  - 1.2 Add new webservice key
  - 1.3 Generate new API key

5. Create product feed

## 1. Generate API key for Koongo

Log into your Prestashop store and create API key for Koongo

### 1.1 Go to Webservice

Go to **Advanced ParametersWebservices**

## 1.2 Add new webservice key

In **Configuration** tab, set **Enable PrestaShop's webservice** to **Yes**.

Click **Add new webservice key** button.

### 1.3 Generate new API key

Click **Generate** button and generate API key for Koongo.

Copy the API key, you need to put it in your Koongo account.

You can fill the **Key description** - e.g. Koongo.

Select the **Permissions** - select all permissions.

In case there are more Prestashop stores available, select specific store in Shop association

Click **Save** button.

## 2. Connect Prestashop

## 2.1. Connect store

Select the Prestashop platform, fill your **store URL** and insert **API key**. Click the **"Add Store"** button

The screenshot shows the Koongo dashboard with a navigation bar (Stores, Channels, Orders, Products) and a language selector (English). Below is a section titled "Supported e-commerce platforms" featuring logos for PrestaShop, Magento, Magento 2, CCV Shop, lightspeed, shopify, SHOPTRADER, BIGCOMMERCE, AFOSTO, EasyWebshop, WOO COMMERCE, Shoplo, logic4, and CUSTOM PLATFORM.

**Koongo for Prestashop**

Integrate your Prestashop store easily with Koongo.

1. Generate API key for Koongo in your Prestashop backend
2. Fill your store URL and API key.
3. And click the Add Store button

Please check the [Prestashop Integration Manual](#) for more information.

Store URL  Api Key

Example: <http://www.shop.tld>

**Add Store**

**Connect your favorite channel**

Check [Koongo Quick Start Guide](#) for more details about channel integration process.

**Contact Us**

Got a question or need any help? Contact us at [support@koongo.com](mailto:support@koongo.com). We'll be happy to help you.

### Redirect error

If there is redirect error - e.g. 302, please check the domain URL format in Edit store - "www" vs non-www domain version.

## 4. Define the default payment method

Go to **Edit store** and define the **Default payment method code** parameter value.

The screenshot shows the Koongo Channels management interface. The top navigation bar includes 'Koongo', 'Stores', 'Channels', 'Orders', and 'Products'. The user is logged in as 'p17.devel1.nostresscommerce.cz - English'. The main content area is titled 'Channels' and features a 'Store Overview' section. In this section, there are three buttons: 'Import Products', 'Edit Store' (highlighted with a red box), and 'Channel Collections'. Below these buttons, there are statistics: 'Products imported: 58', 'Categories imported: 8', and 'Products Status: PRODUCTS UPDATED 14.01.2021 15:38'. There is also a 'Channel List' section with an 'Add Channel' button.

**Koongo** Stores Channels Orders Products English Help Jirka

If product quantity is not defined, than default quantity is assigned to product during import to Koongo.

Change interval for cleaning of removed products
