Koongo Connector - New Profile (Step 1) [Back](#) [Reset](#) [Next Step](#) [Live Support ONLINE](#)

Select Store View and Feed [Get Help!](#)

Store View: * [Select Store View.](#)

Feed: * [Select Feed.](#)

Type *

File *

Are you missing a feed? Some of the feeds are disabled in connector configuration.

Subsequently, select *File* and click *Next Step* in the right up corner.

Set up Attributes mapping table

Now set up the *Export profile* for *Custom Feed Layout* in the same way as *Export profiles* for predefined XML/CSV layouts.

Follow the general instruction in [Export Profile Setup](#). The only difference is the **empty Attributes mapping table** - you need to set up all attribute relations manually, according to your ideas.

Koongo Connector - New Profile (Step 2)

Product XML element name:
