We track carefully all changes made in *Koongo Connector* and here you may find the complete overview. Since connector version 6.0.0.0 we use new development environment, so here you may find only changes and bugfixes included in version 6.0.0.0 and newer. Changes in older versions you may find in section [Version 5.0.0.0 and older](#). To get some basic overview about our development processes, please see [Release Process](#).
