

# Custom Channel Layout Setup

## Table of Contents

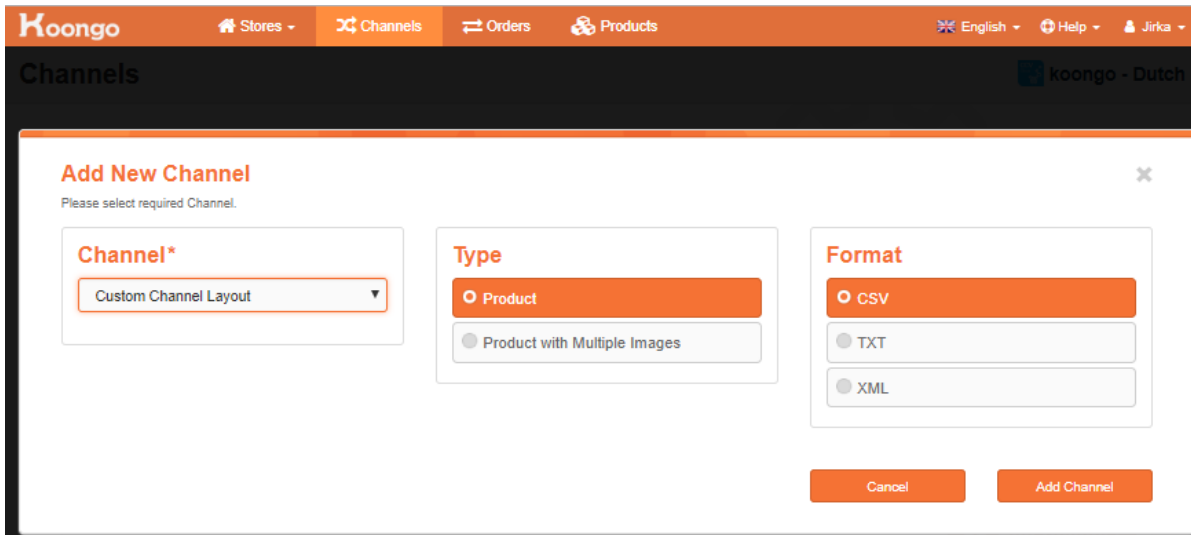

- 1 Custom Channel Layout
  - 1.1 Select Custom Channel Layout
  - 1.2 Set up Attributes mapping table
- 2 Custom Channel Layout - Multiple Images
  - 2.1 Select Custom Channel Layout - Multiple Images
  - 2.2 Set up Multiple Images settings
  - 2.3 Set up Attributes mapping table

## 1 Custom Channel Layout

### 1.1 Select Custom Channel Layout

Navigate to *Add channel* choose *Custom Channel Layout* Type: *Product* Format

Subsequently, click *Add channel*.

The screenshot shows the 'Add New Channel' form in the Koongo application. The form is titled 'Add New Channel' and includes a sub-header 'Please select required Channel.' It features three main sections: 'Channel\*' with a dropdown menu set to 'Custom Channel Layout'; 'Type' with radio buttons for 'Product' (selected) and 'Product with Multiple Images'; and 'Format' with radio buttons for 'CSV' (selected), 'TXT', and 'XML'. At the bottom right, there are 'Cancel' and 'Add Channel' buttons.

### 1.2 Set up Attributes mapping table

Now set up the *Feed layout* for *Custom Channel Layout* in the same way as for predefined XML/CSV layouts.

Follow the general instruction in [Channel Profile Configuration](#). The only difference is the **empty Attributes mapping table** - you need to set up all attribute relations manually, according to your needs.

	<a href="#">Add Channel Attribute</a>			

## 2 Custom Channel Layout - Multiple Images

### 2.1 Select Custom Channel Layout - Multiple Images

Navigate to *Add channel* choose *Custom Channel Layout* Type: *Multiple Images* Format  
Subsequently, click *Add channel*.

**Koongo** [Stores](#) [Channels](#) [Orders](#) [Products](#) [English](#) [Help](#) [Jirka](#)

## Channels

[koongo - Dutch](#)

### Add New Channel

Please select required Channel.

Channel\*

Type  Product  Product with Multiple Images

Format  CSV  XML

[Cancel](#) [Add Channel](#)

## 2.2 Set up *Multiple Images* settings

Define the format how should be the images exported.

The screenshot shows the 'Edit Channel #113 (Custom Channel Layout - Product with Multiple Images - CSV)' interface. At the top, there is a navigation bar with 'Koongo' logo and menu items: Stores, Channels, Orders, Products, English, Help, and Jirka. Below the navigation bar, the page title is 'Edit Channel #113 (Custom Channel Layout - Product with Multiple Images - CSV)'. There are buttons for 'Channel Details', 'Product Filter', 'Category Mapping', 'Back', 'Duplicate', 'Save And Continue Edit', and 'Save'. The main content area is titled 'Custom channel layout Specific Settings' and contains several configuration fields:

- Name:** Custom Channel Layout
- Export All Images:** Yes (dropdown menu)
- Export All Categories:** No (dropdown menu)
- Images column header:** Images
- Images column header suffix:** (empty text field)
- Images column position:** last
- Images delimiter:** ;
- Images in one column:** yes
- Images limit:** 5

Below these settings is the 'Shipping Cost' section, which includes:

- Shipping costs dependent on:** Price final include tax (dropdown menu)
- Shipping method name:** (empty text field)
- Shipping costs intervals:** 0, 1000000, cost (with an 'X' button)
- Add new interval:** (button)

At the bottom, there is a link for 'Advanced Settings'.

## 2.3 Set up *Attributes mapping table*

Now set up the *Feed layout* for *Custom Channel Layout* in the same way as for predefined XML/CSV layouts.

Follow the general instruction in [Channel Profile Configuration](#). The only difference is the **empty Attributes mapping table** - you need to set up all attribute relations manually, according to your needs.
